

Content and Activities for School-Age Children

Memorializing Our Heroes – Reference Page

Target Audience: Grades 3-8

Objective: The students will get to know the heroes of the "Swords of Iron" war and commemorate them through content activities from the hero's world and present their work in class.

1. Parents and children activity at home - choosing a story and filling out a "portfolio" about the character of the hero.

The website "The Heroes of October 7th" <https://www.giborim-kids.com/> contains hundreds of stories about heroes who fell in the "Iron Swords" war. Together with a parent, enter the website and choose a story that you want to familiarize yourself with, keeping his or her memory alive by creating a 'portfolio' in their name.

Task: Fill out the "My Hero" document (נספח 1)

This task consists of 3 pages:

1. the details of the fallen hero, a photo, and written details - נספח 1
2. My Hero - Questionnaire (in the folder)
3. The story about the character chosen by the student

2. Teacher student activity at school - memorial class: bulletin board display of home projects.

After completing the portfolio activity at home with a parent, it's time to submit the final product (portfolio). The teacher coordinating the project will choose a location for the commemorative memorial board, either inside the classroom, or along a corridor.

Task: print the document you filled out at home (my hero portfolio) as well as the story you chose and bring it to class.

Dear Educator - The purpose of the bulletin board is to expose the other students of the class to the heroes, as well as to allow them to enter the site, to delve deeper independently, as well as to get to know more characters and stories from the heroes of the war.
